

Children's Saturday Club

This club gives children an early advantage, a foundation they can build on the rest of the lives. Through learning Chinese, your children will have a head start in their future careers.

Our highly experienced qualified teachers (all the tutors are CRB checked) will not only develop children's language skills, but also provide first hand cultural experiences through various activities.

Class sizes vary according to children's language levels. Normal is 6 in each group. One to one class is also available.
